Professor Kayton

PRG's New Course Materials and Lectures Anticipate All Possible 2001 Exam Subjects

Massive amounts of new statutory and rules law of the American Inventors Protection Act (AIPA) are in effect which the PTO has announced are proper subject matter for the Year 2001 Exams. Professor Kayton's Review Courses are specifically designed for Exam

candidates to efficiently learn the required new matter for success on the 2001 Exams.

It is widely acknowledged, even at PRG's competitor course provider, that Professor Kayton and Paul Gardner, PRG's Academic Director and CEO, not only prepare their candidates for the Exam, but *teach* the law not known by the Exam candidate. This year, more than ever, *only* this approach can offer a high probability for success on the Exam.

Home Study For 2001

Video & Home Study Library <i>(Classroom Course Equivalent For Use at Home)</i>
Home Study Library Only <i>(Classroom Course Printed Materials Without Lectures)</i>

PRG Year 2001 Patent Review Course Participants Who Follow Professor Kayton's Study Schedule Will:

- Almost assuredly pass their 2001 PTO Exam; and
- Become instant gurus in their law firms and corporate patent departments on the AIPA subjects of Patent Term Guarantee, Pre-Issuance Publication, Requests for Continued Examination, and the new 35 USC §§ 102(e), (g), and 103(c), all of which are captured in Professor Kayton's new 7th Edition of *Patent Practice*, the unique treatise upon which the PRG Review Course is built.
